

## CONSENT FOR ACCESS TO PROPERTY

Name: \_\_\_\_\_

Title: \_\_\_\_\_

Property to which Access is Granted: All Monitoring Wells (the "Property") under the control of Genuine Parts in Speedway and Indianapolis associated with investigations conducted by Genuine Parts pursuant to the Voluntary Remediation Agreement for the Former Allison Engine Plant 10 Site.

I consent to officers, employees, contractors, and authorized representatives of the United States Environmental Protection Agency ("U.S. EPA") entering and having access to the property (the monitoring wells referenced above) for the following purposes:

To take samples and measure the water level in the well at each monitoring well on a one-time basis;

To take any response action necessary to address any release or threatened release of a hazardous substance, pollutant or contaminant which U.S. EPA determines may pose an imminent and substantial endangerment to the public health or the environment.

EPA estimates that the work for which access is requested will be accomplished during the month of December, 2011, if access is provided by no later than December 5, 2011. Genuine Parts will arrange for a representative to be present for purposes of unlocking the wells and obtaining split samples.

U.S. EPA is responsible for containerizing, storing, handling and disposing of all waste and substances generated by EPA in connection with the work.

I realize that these actions taken by U.S. EPA are undertaken pursuant to its response and enforcement responsibilities under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, 42 U.S.C. §§ 9601-9675 (1997).

This written permission is given by me voluntarily, and without admission of any liability of any kind to any federal, state or local agency or other third party, on behalf of myself and all other co-owners of this Property, with knowledge of my right to refuse and without threats or promises of any kind.
